proceeded to go through the train, and every car, from the express car to the rear Pullman was searched. Nothing was obtained from the express car for there was no treasure on board. In the mail car better success was met and the Portland, Tacoma. Seattle and Victoria, B. C., registered sacks were rified. The passengers were also searched pretty thoroughly, but just what success was met with is not known.

One highwayman took a hasty shot at Conductor Kearney, who was in charge of the train, but no damage resulted.

A description of the men, or rather one of them in particular, is given as height 5 feet il inches, light complexion, light mustache, projecting upper Jaw, very heavy pointed chin, two upper front teeth projecting and high check bones. He wore about a No. 8 shoe with tacks in the bottoms. He had on blue overalls.

The description of the other is that of a man about 5 feet 8 inches in height, but as he kept in the background, a definite description could not be had.

Supt. Fields of the Southern Pacific lost no time, and in an hour after learning of the hold-up had two parties on the way to the scene of the robbery. A posse of officers was hastily made up in Rossburg and started at once and another of roughand-ready mountaineers started from here. Every effort will be made to capture the robbers. The men of the party starting from here are thoroughly familiar with every foot of the ground in the neighborhood of the robbery, and pretty good hopes are entertained of capturing the robbers, The train was delayed several hours, having been compelled to turn the engine around and go into Roseburg backwards. Chaperoned by matrons pro the maids of honor will be in attendance at every important event of the k. They have taken the companies or their especial care and between the ups on the Jocky Club veranda there is a rivalry not less intense than that be-tween the soldier boys moving with mechanical precision through the com-plicated tactics, alert to avoid the slightest fault of drill that may be marked down against them by the heartlessly impartial

On the field each company contends that its sponsors are the fairest and without compare. The sentry turns promptly at the end of his grounds to return to the feast of the eyes where the maids of honor kettle claims only half the attention of the cook, who, like all the others, stands ready to defend his company's claim. This dis pute will never be settled, but for the sat-isfaction of all the Post-Dispatch has decided to open an election to soldiers and civilans and determine by ballot the only

POST-DISPATCH BALLOT,

MAID OF HONOR INTERSTATE DRILL.

As the Most Popular Maid of Honor of the Inter-

tate Drill and Encampment, St. Louis, Mo.,

They Propose to Nominate a State Ticket at the Silver Convention.

FOLLOWING KENTUCKY PLAN

Members of the State Committee, as a Last Resort, Will Try to Intimidate Candidates Into a Compromise.

The gold standard members of the Dem ocratic State Central Committee think they are like old Joe Bagstock-devilish sly, sir. They lie awake at nights hatching up schemes to prevent the Democrats of Missouri from giving an expression to their sentiments on the silver question. The let and signed by him requiring all the County Committees to be reconvened was regarded Committees to be reconvened was regarded as a brilliant stroke for delay, but it wasn't

Committees to be reconvened was regarded as a brilliant stroke for delay, but it wasn't depended upon entirely. Another plan has been evolved which is depended upon to scatter the silver forces if everything else fails. It is, as might, be expected, the Kentucky plan.

Some members of the State Committee are quietly at work now to have the convention, which is called for the purpose of taking action on the money question. nominate State officers also. When the State Committee meets, if it does, it is proposed to fix the time for holding the convention for some day in October and include in the call the nomination of a State ticket.

By doing this the gold standard men believe that they will be able to play the game which the cuckoo forces worked so adroitly in Kentucky. By mixing the money issue with the nomination of State officers they think they will be able to buildoze the candidates by threats of bolting into a straddle on the silver question. They also believe that when the candidates hear of the intention of the committee they will bring what influence they have to bear on their friends to keep a convention from being called.

Primarily the gold men do not want a convention at all. But if one is held they will resort to the most desperate methods to prevent an indorsement of free silver. One of the gold standard leaders is reported to have said recently that he would go to any extreme to prevent it. The nomination of a State ticket a year in advance of the election would be unprecedented, but that is the scheme that is being hatched now.

Marfatt, it is said, has not been taken into the scheme yet. At least the Post-Dispatch reporter's informant said that he had not up to last Saturday, John Carroll and Tom Connors are said to be the two most active promoters of it. Connors was in St. Louis all last week, but he went down in his district Saturday night to feel his friends. Incidentally it is said that the tip is quietly being given out to the candidates who are friends of the combine to get their fentes in order, ready for an early convenience.

tion.

The publication of the combine's plan may frustrate it, but it is being worked up now. It is a modification of the original Carroll idea to hold a convention in January. It not only gives the gold men time to operate, but it brings a trading element into the contest which would be used to the utmost.

MR. MAFFITT TALKS

He Will Consider Conventions Held After May 31 but Not Before.

Chairman Maffitt was seen by a Post-Dispatch reporter Tuesday morning and asked what action he would take where counties which had held conventions, as in the case of Saline, and requested a meeting of the State Committee to call a State Con-vention, but had refused to reconvene the

ounty committees.
"The action of the Saline County Convention was taken before the last meeting of the State Committee," replied Mr. Maffitt.
"They ask me to reconvene the State Committee, but Mr. Davis refuses to call his

"They ask me to reconvene the State Committee, but Mr. Davis refuses to call his County Committee together again. I have received two or three 'etters of the same sort. I do not consider that the action of any counties or committees held prior to May 3I, the time when the State Committee refused by a vote of 10 to 5 to call a State Convention, should be considered."

"How about those counties which have held conventions since June 1, and asked for a meeting of the committee, but in which the county committees may not reconvene and fill out your blanks?"

"I think they should be considered—I am not going to try to delay the calling of the committee, and I do not think that my plan will. You can state that there will not be a meeting of the State Committee called under any circumstances before July 10. Two of the members of the committee are out of the State, and they have requested me not to call a meeting before that time. No, I will not state who they are, but they are both in favor of holding a State convention. I hold their proxies, and if they should not be here I will vote them for a State convention. I believe that enough of the counties will have acted under my letter to insure a meeting of the committee by July 10 or shortly thereafter."

"Will you still vote for a State convention."

"That depends upon how they keep hammering at me. If they all get up and state what their districts want, and I know what mine wants. It is opposed to a convention."

Chairmen of Fifty-Five Committees Ask for a Convention.

ST. CHARLES, Me., July 2.—Mr. E. R. Britt, Secretary of the Democratic Committee Chairmen's Conference at the Planters' Hotel in Ht. Louis, has received three more responses to the circular sent out to county chairmen. They favor the calling of a State Convention and request Chairman Maffitt to convene the State Committee and issue a call. Mr. Britt now has in his possession replies from the chairmen of fifty-five county committees. Three more will make a majority of the 114 counties, These are expected to-day. MISSOURI COUNTIES.

Meetings Held to Request the Call of a State Convention. SHELBINA, Mo., July 2.—The Shelby decided in favor of the free and unlimited coinage of silver at 18 to 1. John Carroll, State Committeeman from this (the First) congressional district, was instructed to vote for a State Convention. The following delegates to the State Convention, who are also instructed to do-operate with other committees in calling a State convention in case the State Committee fails to make such a call, were elected: J. T. Perry, R. P. Glies, O. P. Sturn, H. J. Simmons and E. H. Carver.

LIBERTY, Mo., July 2.-The Clay County

LEXINGTON, Me., July 2.—The Lafay-ette County Democratic Committee met in this city and passed resolutions requesting Chairman Mafflit to call the State Com-mittee to call a State Convention. The vote stood seven for and none against; one com-mitteeman being about. They also re-quested the member of this (the Fifth) district to vote for a State Convention.

THE COLORADS CONVENTION.

DENVER, Colo., July 2.—Just thirty persons were assembled in East Turner Hall at 10 o'clock, the time set for the Democratic ass convention for the consideration of mass convention for the consideration of the financial question. Chairman Frank Arbuckle of the State Central Committee, who called the meeting at the request of the committee, was not present, but had sent an address, discouraging radical action, to be read by Secretary Oiney Newell.

None of the Federal office-holders were present. It was claimed that the small at-tendance was due to a misunderstanding of the time at which the meeting was to be

tendance was due to a misunderstanding of the time at which the meeting was to be held and it was confidently believed that the afternoon session would bring out a large crowd.

It was 10:40 o'clock when Secretary Oiney Newell of the State Committee called the meeting to order, about fifty persons being present. Mr. Newell in his opening address suggested that the present financial policy of the Government accounted in a measure for the fact that leading Democrats of the State had sent letters instead of attending the meeting. He spoke in severe terms of the action of certain office holders in trying to prevent the present meeting lets something might be said to hurt their political chances. He then read the address of Chairman Arbuckle, which was received without demonstration.

SOUTH FOR FREE SILVER.

Ex-Gov. Jeffries of Louisiana Discusses Southern Economic Conditions.

Asked for his opinion of Southern conditions to-day, he said: The condition of the Southern people, particularly in the agricultural district, is much improved. They are now making the cheapest cotton crop ever raised. If the prices are realized that are now indicated, the South will be in an independent position. There is an abundant corn crop, Great attention is being paid to the raising of hogs and the diversification of crops. What seemed to be a calamity in the low price of cotton has turned out to be a blessing. The present crop will be made on a cash basis. The indebtedness of the people is small, and what they make will be their own.

"I find that in Louistana a decided majority of the Democratic votars favor the free and unlimited coinage of silver. In the country districts the feeling is unanimous. In the cities and towns there is some division of opinion. Some effort is being made to force the silver issue as a test of Democracy, but the leaders are opposing the move and the newspapers favor making the silver fight within the party and endeavoring to impress the opposition with the idea that it is best for the party to accept the will of the majority."

It is said that recent experiments have demonstrated that the plan is entirely feasible, so that the President and his family can, by turning a switch, hear the voices on the stage and the music as clearly as though they were in the opera-house. Another device in the same line is proposed for the benefit of deaf people who attend the theater. It is said that a number of chairs will be supplied with adjustable ear pieces, which will be almost invisible and through which every word uttered upon the stage may be distinctly heard.

The Police Board met Tuesday afternoon for the first time since the new members received their commissions. Both Col. Bannerman and Dr. Forster were present. Col. Bannerman, when asked to give an outline of the policy he would pursue as a member of the Police Board, replied that he had not settled on any policy.

"The meeting to-day is the first one for me to attend." he said, "and it will be given wholly to routine matters. In fact, several meetings to come will be given to the transaction of routine work, and no new policy will be settled upon until the new members hold several conferences with the other members of the board."

The richly uniformed Chicago Zouaves and the more picturesque Mount Pleasant Field Band of Washington, D. C., consisting of a full drum and bugls corps of about forty boys, ranging from 10 to 16 years of age, followed by the militia companies in the regulation blue, the artillerymen with their heavy trappings and burnished guns and the zouaves in red blouses, white trousers and leggings made up an altogether pretty spectacle.

Cheer after cheer went up from the crowds as the column moved along the streets. When the reviewing stand at the Planters' was reached the enthusiasm was unbounded. The porticos were beautifully decorated with flags and vari-colored bunting, intermingled with green hued plants and shrubbery. The entire balcony was reserved for the military and civic committees, while the ladies of the party were given the bridal chambers and the adjoining parlors on the fourth floor. The committees were made up of the fol-

He has black hair, large, lustrous or eyes, dark complexion, high, full lead, but appears to be rather delicate ir as physical strength goes for one is years. When seen by a Post-Dish reporter little Ray was dressed in ack suit of knickerbocker style, and a broad sallor collar of red and white exceedingly handsome little boy. York is a Baptist—not a "Hardshell," Forty-Gallon" Baptist, but a Baptist of modern, progressive school. His home warrensburg, Mo., and this is the time he has visited a large city. His ints are plain people. His father, Zadok ork, is a house painter. When asked uplain how his little son began preachur. York said:

how his little ork said:
9th of February, 1894, Rev. H. ar was holding a protracted meet-Baptist Church in Warrensburg, at night when the minister asked to come forward Ray walked up hat night when the minister saked are to come forward Ray walked up and joined the other confessora. Inter asked Ray to tell why herward. Ray arose and told his exin a way that surprised everybody. And Rev. Mr. Slaughter had Ray the children. In order that the could see Ray the preacher put the pulpit. He soon began to talk to a grown man than a boy, and opossess a wonderful power. There to Knob Noster to assist Rev. Altchell in a revival, Ray's part talk to the children. His power duntil the grown people flocked him. Then he went to St. Joe, preached to immense crowds. He seems to the arms of the deline evengelist.

or father has any special gift in conversa-tion and never made any attempt at public address. Ray talks as smoothly as a mature preacher and uses no notes or memoranda. All his speakings are purely extempora-neous. What he says is original with him-self, as no one prompts him or indicates what he shall talk about or what he shall say. His speaking seems to be a gift and he is always inspired by his surroundings, rather than embarrassed. He is like any other boy in his actions out of the pulpit, but very unlike a boy while preaching. rather than embarrassed. He is like any other boy in his actions out of the pulpit, but very unlike a boy while preaching.

Ray has been attending school since he was 6 years old, and he now lacks only one year of graduation in the Warrensburg High School. He has always displayed precoclousness and has been far in advance of other boys of his years in his books.

Asked to tell why he began preaching. Ray York said: "Well, I just let like. I cought to talk. I never have any difficulty in finding expression for what I have to say. Sometimes I find it a little difficult to begin a sermon, but once I have begun it I find no lack of things to say. I always preach my own sermons. I never tried to preach a sermon containing thoughts furnished by another person but once, and it was a fallure. I never feel embarrassed while I am speaking. When I begin my sermon I do not know everything I am going to say, but one thought leads on to another."

Rev. E. F. Leake, the IT-year-old evangelist, has been preaching for one year. He is pastor of a Baptist Church at Carman, Ill. He is quite youthful in appearance and has a rather shy manner, but pleasing address in conversation.

HOWGATE'S SENTENCE.

Eight Years Imprisonment in the Penitentiary.

WASHINGTON, July 2.—Capt. Henry W. Howgate, the former disbursing officer of the Signal Service, who, after years of wandering as a fugitive from justice, was found in New York City in business as a second-hand book dealer and brought back to Washington, was sentenced to-day to eight years imprisonment in the penitentiary. He was convicted last week on two counts alleging forgery and falsification of accounts in 1879, after the first indictments against him had been quashed by the sustaining of demurrers entered by Howgate's counsel, Capt. Howgate's counsel noted an appeal to the Court of Appeals at its session next fall and the court granted a stay of execution until that time. Capt. Howgate was then remanded to jail to await the result of the appeal.

CROPS IMPROVED BY RECENT RAINS.

But Chinch Bugs Are Attacking Corn in Illinois.

OATS HARVEST HAS BEGUN.

Fruit Still Promising, With Early Apples Ready for Market.

CHICAGO, July 2.—The Illinois weekly weather crop bulletin, issued to-day, says: The past week has been favorable for the good growth of crops in general throughout the State. Good showers fell over the cen-tral and northern sections the first of last week, and a general rain in the countles. Temperatures were nearly normal; slightly below in the Northeast counties and slightly above in the Southern. The average rain fall was about the normal for the week which is an inch of rain. Corn and potatoe ing well, except that corn is being damaged in the central Southeast and South counties by chinch bugs, which have gone from the wheat fields. The late rains have with threshing being done in Southern and entral counties. Oats are being cut in Bouthern Counties, and are ripening fast in central. Hay cutting shows timothy to much millet, cane and corn is being sow for fodder, and many fields will be planted with peas and beans to utilize ground and provide additional crops. Fruit is stil promising, with early apples, peaches and plums being marketed in Bouthern Coun-ties.

DES MOJIMES weekly weather crop bulletin, make day, says:

The daily temperature of the past week averaged about \$ deg. below the normal, and there was a general deficiency of sunshine. The rainfall was abundant, except in portions of the eastern districts.

On the whole the cool weather has been highly favorable for oats, spring wheat and flax, and not detrimental to other crops date are filling well, and the more advance. orts show an increased acreage and ormal condition of flax in the section

neavier, and pastures are generally good. Potatoes are exceptionally promising. Bountiful Wheat Crop.

NEW YORK, July 2—Ansel Oppenheim of St. Paul, a prominent capitalist, railroad and real estate man of the Northwest, is at the Fifth Avenue Hotel. He says that business is improving in Minnesota. "Give us ten days or two weeks more of good weather," he said, "and there will be one of the most bountiful wheat crops in the of the most bountiful wheat crops in the Northwest that has ever been seen. It is a wonderful outlook. If the crop comes to harvest in accordance with present indications it will tend to start business wonderfully. The people are in a much better frame of mind. There is less talk of hard times. Firms that were shaky or ruined during the worst of the trouble are building themselves up again."

Campos Will Be Forced to Adopt More Vigorous Measures in His Campaign.

· (Copyrighted, 1895 by the Press Pub. Co.) Special Cable to the Post-Dispatch. HAVANA, July 2.—Gen. Gomes has left Gen. Lope Recaio, it is reported, and is advancing westward on Santa Clara at the head of 10,000 men. Already more persons are in rebellion in Santa Clars Province than during the whole ten years of the first rev-olution. Men are revolting as fast as they can procure arms. They are generally con-tributed as war taxes by plantation owners. Gen. Gomes thinks the people of Matanzas Province between Santa Clara and Havana will likewise flock to his standard. He inwill likewise flock to his standard. He intends to reach Matansas during the summer. After an insurgent guerilla band has been organised and numbers, say fifty, it is speedily strengthened, for all men they come across must join them willingly or otherwise.

otherwise.

The revolution is steadily gaining. That is shown not so much by the news from the field as by the steps the Spanish Government is taking. The Spaniards are beginning to be convinced that they have a desperate and thoroughly organised foe to meet. Both Gen. Campos' threats and promises have been scorned by the Cubans, and it is now said that he has hinted that self-government will be granted to Cuba if the rebels will listen to terms of peace. But all attempts to compromise with the insurgenta have been futile.

In official circles it is said that Campos will adopt more vigorous measures and conduct the war on entirely new lines, and

MAYOR OF HAVANA. He Says the Uprising Is an Ebullition of Anarchism.

Special to the Post-Dispatch. NEW YORK, July 2.—Segur NEW YORK, July 2.—Segunda Alvarez, the Mayor of Havana, arrived in New York yesterday. He says the insurgents' strike for so-called liberty is an ebuilition of Anarchism, adding: "It is the general opinion in Havana, at least, that if the United States had not openly expressed friendliness towards the Cubans, the revolution would not have obtained its present proportions. The elements in Cuba that work and think agree that there could be no better condition on the island than a perfect union between Cubans and Spaniards. Such a union was gradually being effected when these disturbers, so-called leaders, came along and arroused the unthinking. There should be harmony and unity, not dissension. Spain is prepared to listen to all reasonable requests or demands for reform, but Cubans decline all such overtures."

A SILLY SCHEME.

The silliest scheme yet devised fo thwarting the desire of Missouri Demo erats for a State Convention is that exposed in our news columns to-day. It could succeed only if kept in the dark. Publicity and discussion will kill it be-fore it is fairly launched.

The chief objection urged against the proposed convention by Chairman Maffitt and the other members of the State nmittee who are opposed to it is that g of a conve t an unusus time is unprecedented and beyond the power of the State Committee. The answer to this has been that the State Com mittee is simply the instrument of the manifested its will in a given direction for a given purpose it is the duty of the State Committee to facilitate the carry ing out of that purpose. What excuse could opposing members of the State Committee offer for calling a convention to nominate a State ticket months before the usual time for calling such a conver tion, and when there has been no expres sion whatever on the part of the people

With marked unanimity the people ave asked for a State Convention which shall give them the opportunity of ex prossing their views on the money ques Not only has there been no deman by the county conventions, the county committees or the newspapers for premi ture nominations, but one of the principa reasons given for holding a convention in advance of the regular nominating convention has been that in this way a ques tion of party principle and policy can be dealt with entirely disconnected from the personal interests and complications that institons to office are to be made.

If Col. Carroll and Mr. Connor are fathering this scheme, they should drop it. of it will not have the desired effect of aring candidates into opposition to an August convention

hibition of obstinacy and silliness in con-nection with this question. If the State Committee is determined to defeat a convention, let it be done openly and straightforwardly. No attempt to defeat it by indirection or by complicating it with the aspirations of candidates will deceive the people.

BEASSURING CONDITIONS.

The attempt of the Republican organs to discredit the Democratic Administra-tion on account of the Treasury deficit is ridiculous and cannot fail to react on the

itable to the Administration is creditable and is decidedly reasouring. The deficit for this year is \$28,750,000 less than that of last year, when it reached the enornous aggregate of \$70,000,000. It is absurd to charge this great deficit

to Democratic mismanagement when the

suffering from extreme business de pression—a legacy of Republican misrule. The gradual reduction of the deficit in-licates the beneficial effect of the moddicates the beneficial effect of the mod-erate tariff reform law substituted for the McKinley law. The most impressive suggestion in the Treasury report is that of the tremendous difficulties which the Republican Administration left for its

emocratic successor to meet, The Democratic Administration has not been what it ought to have been in all respects, but it is at least entitled to the praise of being vastly better than its Republican predecessor.

THE POLICE "SHAKE-UP."

If the "shake-up" of the police force which it is reported will mark the in-stallation of the new members of the board is along the lines of reform in-augurated in New York it will be an exellent thing for the department and the

The force ought by all means, as Commissioner Lee says, to be made as effi-cient as possible. There is undoubtedly room for improvement and some of the active work of investigation which Mr Roosevelt is doing in New York would be beneficial.

One essential step towards reform is the stricter enforcement of discipline. The practice of assessing small penalties for grave offenses and frequently remitting them should stop. The records of the men should be carefully inspected and they should be held to rigid accounta-bility for breaches of discipline and espe-

cially for breaches of discipline and espe-cially for violations of law.

But above all else the police should be taken out of politics. There is strong evidence that the police have acted at times as champions of political factions, aiding or countenancing rather than pre-venting frauds at the polls. This is an intolerable abuse. We have now a new election law which makes it possible to secure honest elections. The police must be an efficient part of the machinery to promote its fair administration, not to pervert it.

The people have great hopes of the Police Board as now constituted. Will it justify their confidence?

THE NEW AGE OF CONSENT LAW.

Judge Murphy dismissed the charge of riminally assaulting Mary Muschamp, a 17-year-old girl, which was brought against Frank J. Flanagan, on the ground that there was not sufficient evi-dence of the girl's resistance. Young Flanagan has special cause for

thankfulness over the date of the act for which he was arrested. If it had been committed five days later his case could not have been dismissed on the ground cited by Judge Murphy. He would have been amenable to conviction of felony, whether the girl made any resistance or not, under the new age of consent law, which went into effect June 21.

The Missouri Legislature at the regular

ession passed an act raising the age of consent to 18 years. No girl under that age can consent to her undoing. Any man who misleads a girl less than 18 years of age is liable to conviction for ny, the punishment for which is im-conment in the penitentlary for a term

GOV. ALTGELD'S OPPORTUNITY.

If the report that Gov. Altgeld holds proof of the bribery of members of the Illinois Legislature be true, the announcement that he intends to have them prosecuted ought to be true.

With evidence of legislative corruption in his hands the Governor has it in his power to do a service of inestimable value the people of Illinois and to the cause of honest legislation everywhere. The conviction and punishment of one corrupt legislator would be worth a volume of charges. One legislative bribe-taker behind the bars of the penitentiary would be an object lesson the force of which would be felt in every part of the country. One of the greatest difficulties in the way of purifying legislation is the apparent safety of the crime of bribery, the immunity enjoyed by those who give and take bribes. To break the long record of immunity in State Legislatures

would be a public service of the highest character. Gov. Altgeld has proved himself a man of courage. He has a coadjutor of demonstrated fearlessness and ability in Atty.-Gen. Moloney. The situation in Illinois is opportune for a stroke that will show unworthy legislators that they cannot betray the people's trust and defy the law with impunity.

This view, which seems to be that of common sense, will probably be sustained by the upper courts and adopted in other States. It is exactly what wheelme have worked for since the early days of According to this decision a wheelman

has as much right on the public highway as a teamster with his load or a million aire with his equipage. He may go any-where they may; he has the same privileges and must observe the rules of the road with the same care and exactness.

This is all in his favor, for drivers of horsed vehicles have been too apt to regard the wheelman as an intruder and gard the wheelman as an intruder and treat him accordingly. He has been crowded out of the road, run down, stopped and forced to dismount, and oth-erwise maitreated by drivers who get sport or spite out of such outrages. All this will be stopped, and the wheelman can ride assured of the protection of the

On the other hand, the bloyple being t vehicle may not be taken into the house like a cane or umbrella and keepers of public houses are subject only to the obligation of good nature to permit the practice. Nor may wheelmen use the sidewalks to the terror and injury of pedestrians. They ride vehicles and must keep on that part of the public highway

set apart for vehicles.

The decision is in the interest of all classes. Horsemen, pedestrians and cyclers ought to be equally satisfied with

At last a Solomon has appeared in New York, and dressmakers who sue on misfits are no longer protected by man's ignorance. There is one Justice who has perceived that a lady's dress was too high in the neck and that it did not fit at the waist. Of course this benchman is an exception and a prodigy, and when he passes away the women of New York will again be at the mercy of the dressmakers. makers.

Brer Foster would like to know where that Treasury surplus of 1892 was when he wanted to isue some new bonds, and a good many people would like to know where we would have been "at" in that year if the farmers had not shipped an enormous amount of grain for European consumption. The local Republican organ here is away off in its talk about '92.

Last Sunday's Post-Dispatch distanced all competitors. Next Sunday's Issue will be better still. In pictures and in reading matter it will be a delight to the eye and a refreshment to the mind. It will also contain the advertising announcements of all of our leading merchants, so that its practical value as a guide to the householder will be great.

Dr. Brooks' failure to eradicate prog-ressive euchre in Memphis has led to his resignation as pastor, leaving a vacancy for some good man with progressive euchre ideas. Even as far south as Memphis a preacher is expected to adapt himself to his congregation.

Happily the Browns are nearer tail end than the Washingtons, but the Louis-villes are so very bad that there seems to be no hope for actual tail honors for any other club. Still, the season is not over, and the dropping capacity of the Browns is great.

It is a pity that the State Committee has not shown the fairness of the Clay County committeeman who, though opposed to free silver, voted for a conven tion "because his people were for it." So faithful a representative is deserving of all praise.

The total advertising in Sunday's Post-

Dispatch was 100 columns. In the corresponding Sunday issue of last year it was 66 columns. This is an increase of over 50 per cent, instead of 331-3 per cent, as stated yesterday. If the President had some such telephonic connection with the great West

as that proposed for him in conection with the Lafayette Square Opera-house, he would hear something of vastly more importance than opera. Good times or bad times, there is noth-

ing that can keep down the circulation of the Post-Dispatch. In prosperity it is a luxury and in adversity it is a comfort, and always it is within the reach Chairman Maffitt is showing consider able ingenuity in evading his promise and his duty, but not half as much as will be required to square things when the Da-mooracy calls him to account.

The Republicanism of to-day is the ssence of Bourbonism and mediaevalism. It closes the mints, destroys commerce and turns over the world to a select few.

While he was reading all about his supposed self's Sabbath evening adventure Police Secretary Fred Lucas telephoned him, and with a quizzical edge on his voice, told the coal baron to come up and get his things, as the woman was in custody. It gives to the Metropolitan Museum of Art eight pictures, which are almost priceless if they are genuine. The will was executed in 1891. The pictures are carefully catalogued in the will. The number attributed to the greatest of the old masters would indicate that there has been collected in New York one of the finest private galleries in the world. But artists who have looked over the list say it is impossible that the pictures should be the work of artists to whom they are attributed.

be the work of artists to whom they are attributed.

In the list are included more than one Rubens, Titian, Murillo, Paul Veronese, Velasquez, Correggio, and others of distinction. That these should have been tucked away in University place without persons knowing of them seems most extraordinary. An artist who has spent many years abroad, and who is thoroughly familiar with the work of the famous artists, which Mr. Renwick believed was represented in his collection, said:

"It is hardly possible that the pictures attributed to the famous masters are genuine. If they are, the collection is worth \$1,000,000 at least. I cannot believe that such a superb collection could have been in New York without its being generally known. It it possible that many of them are copies."

Last night, shortly before midnight, Frank Bennett, who lives near the institution, noticed an undertaker's wagon in front of Home No. 1. He watched and soon saw a body brought from the house and put in the wagon. He followed the wagon to the undertaker's and then notified the police of what he had seen. Sergt. Mulen was sent to the undertaking establishment, but that officer's authority was not sufficient to bring out anything concerning the body except that it was to be shipped East in the morning and that "Dr." Speicher, Dowles' assistant, had issued a certificate which the undertaker considered sufficient authority for removing the body. Inspector Hunt was notified of the case, and gave it his personal attention. He succeeded no better in obtaining information than had Sergt. Mullen, and he notified Coroner McHale of the facts. The Coroner ordered preparation for the shipment to cease and said he would investigate.

"Dr." Speicher said the body was that of Mrs. Magdaline Bunks of Berlin, Canada. He said heart disease had caused her death, and claimed to have authority from the Department of Health to issue death certificates, denying that there was anything irregular in the case.

It is stated that the body was taken from the home at such a late hour because it was not decided until late in the evening what disposition to make of it.

A bill has been filed in the Superior Court for an injunction to restrain Dr. Alexander Dowle from maintaining hospitials or "divine healing homes" and his tabernacle. The court is asked to decree that the tabernacle and hospitals constitute a public nuisance which ought to be abolished.

The complainants are L. J. Maguire and Mary C. Thomas, who live near Dowle's home.

A BATTLE OF EQUINE KINGS.

The Oakley Track Arranging a Grand Match Race.

LISSAK, SIMMONS, CLIFFORD

The Owners of the Horses Express Their Willingness and the Prospects Are Very Bright.

There are prospects for a big special race at Oakley between Lissak, Simm Clifford and others of the crack flyers and the Oakley people could score a ten-strike by arranging it. The owners of Lissak have expressed themselves as ready and willing for such a race at any time. Col. Bob Rose has repeatedly said that Clifford is ready to enter also and now Cella has made a proposition to enter Simmons.

A telegram was received in St. Louis Bunday asking if Simmons would enter and in response the following was sent:
"Simmons will go in at a mile or mile and an eighth, weight for age, solld side stake and a purse sufficiently large to make it an object. Cella thinks his horse superior to Lissak."

Lissak."
When owners feel like this it is no trouble to arrange a special race for even the best flyers in the land. It only remains for the Oakley management to str their strangs before some other enterprising race track steps in and takes the only race under consideration from it.

CYCLISTS' NEWS.

Where Wheelmen of St. Louis Look for What Is Doing.

The popularity of the Post-Dispatch was illustrated in last Sunday's advertising columns and a comparison with the other papers will show what the riders, the makpapers will show what the riders, the makers and sellers of bicycles think of the leading cycling paper of St. Louis. The Sunday Post-Dispatch contained 25 per cent more advertising than all the other Sunday morning papers combined. This fact is enough to convince anybody that the dealers know how to reach the cycling public. In the news feature the Sunday Post-Dispatch also led all of its contemporaries and the news was strictly up to date. Cyclers know where to go for accurate news and the advertisements of the latest things in bicycles and sundries.

The result of hard work on the part of the promoters of the new West End Athletic Ciub was shown at the meeting Monday night, when between 375 and 400 subscribers to the prospectus were reported. It is the intention not to organize until the club has a roll of 500 members and it is expected that this will be secured before another week.

At the recent meeting the name of the organization was changed to the St. Louis Athletic Club as being broader in scope. Mr. Adiel Sherwood was instructed to apply for a charter under that name and the meeting adjourned subject to his call.

There have been a good many people holding back to see if the club really would take shape before sending in their names and the has retarded progress somewhat, but now, if all having an interest in athletics and desiring to save the club-house and grounds would come forward and aid the club would be on its feet within a week. letic Club was shown at the meeting Mon-

At 11 a. m. Tuesday Archbishop John J. Kain met Mr. Festus J. Wade at the office of the Anderson-Wade Realty Co., Eighth and Lecust streets, to close the deal for Gen. John B. Henderson's property on Lin-dell avenue, between Taylor and Newstead dell avenue, between Taylor and Newstead avenues. The purchase of this property by Archbishop Kain as a site for a great cathedral bears out the exclusive announcement of the negotiations, published in the Post-Dispatch last Friday. The prominence of the parties to the deal the magnitude of the sums involved, and the checkered history of the preperty made the story one of special interest, and provoked the usual denials, born of chagrin. One morning paper had a representative of the Anderson-Wade company make an ambiguous contradiction of the report and the other quoted Fr. McCaffrey of St. Patrick's Church, now soliciting thousand-dollar subscriptions for the Cathedral, as saying that he had not heard of the deal and if it was being contemplated he would be aware of it.

that he had not heard of the deal and if it was being contemplated he would be aware of it.

But the fact remained that Mr. Wade was in the East conferring with Missouri's ex-Senator about the matter, and the records showed that last Friday morning Col. James M. Lewis made Gen. Henderson's title to the Lindell avenue property of record by filing the deeds. This he did a month after Gen. Henderson bought the property from the Connecticut Mutual Life Insurance Co.

Mr. Wade got back from Washington Monday and he made the appointment with Archbishop Kain for Tuesday at II a, m. When a reporter called on Archbishop Kain at 10 a. m. Tuesday and asked him about the proposed purchase of the Cathedral site, he smiled and said:

"If you will just give me time to go down town and buy the property I will teil you all about it."

"Is the property you intend to buy the same that was mentioned in Friday's Post-Dispatch?"

"I was busy traveling last week, and so I did not see the newspapers."

The article was produced, and the Archbishop read it closely.

"It is correct in the main," said he, "but I do not intend to buy all the property between Lindell and Maryland, Newstead and Taylor avenues. I can have what I want of it."

I do not intend to buy all the property between Lindeil and Maryland, Newstead and Taylor avenues. I can have what I want of it."

The interview closed with a promise from the archbishop to make a clean bresst of the whole deal at the end of his meeting with Mr. Wade, provided everything went off satisfactorily.

The property which Gen. Henderson purchased from the insurance company is worthy of a grand cathedral, which will contain in its architecture and ceremonies the epitome of ecclesiastical wealth and pomp. It has a frontage of 1.023 feet on Lindeil boulevard and the same on Maryland avenue and a frontage of 448 feet on Taylor and Newstead avenues. The property was for a long time involved in litigation on account of alleged irregularities in a Sheriff asle made in 1823. By this sale the cathedral site now known as block 45 of Peter Lindeil's second addition, and much other property, passed out of the hands of Samuel Hammond. In 1840 it passed into the possession of Peter Lindeil and in 1873 the heirs of Hammond contested the title of the Lindeil's heirs. After twenty years of litigation the United States Court confirmed the title of the Lindeil's.

Precisely at II o'clock Archbishop Kain met Mr. Wade. The conference was brief and at its end Mr. Wade said to a reporter: "I am now able to tell you that Archbishop Kain met Mr. Wade. The conference was brief and at its end Mr. Wade said to a reporter: "I am now able to tell you that Archbishop Kain met Mr. Wade and runs through to Maryland avenue, the street north of Lindeil avenue and runs through to Maryland avenue, the street north of Lindeil avenue."

Mr. Wade readily admitted that his recent visit to Washington was for the purpose of conferring with Gen. Henderson about the deal. He said that the deeds will be executed to-morrow.

Archbishop Kain will not begin work on the new cathedral for several months. A committee of priests appointed by him are soliciting subscriptions of Il.000 and intend to raise 100,000 in this way. Already they have obtained 18

MUSIC TEACHERS' ASSOCIATION.

Assembly of the Annual Convention at the Germania.

WELCOMED TO THE CITY.

Addresses Made by M. Coe Stewart for President Stanley and by Mr. Perkins of Chicago.

The seventeenth annual convention of the Music Teachers' National Association convened at 2:30 Tuesday afternoon at the Germania. The hall was well filled with local and out-of-town musical people.

Acting Mayor Nagel welcomed the guests to the city in a short and appropriate ad-

The address prepared by President A. A. Stanley, who was prevented from attending on account of a severe spell of illness, was read by Mr. M. Coe Stewart of Cleveland. "This association." read Mr. Stewart, "which for many years has exerted a health-"which for many years has exerted a heatinful influence upon music in the country,
meets for the first time in this great metropolis. It was deemed wise for the association to break away from past traditions
and come to a new section of the country
in order that mutual benefits may accrue.
Our great object, one which has been rigidly
kept in view, has been the formation of
strong State associations, to which the
Music Teachers' National Association has
given the inspiration."

In Mr. Stahley's address, as read by Mr.
Stewart, the writer expresses regret that Stewart, the writer expresses regret that musicians as a rule are not far-sighted enough to realize the benefits which accrue from mutual interchange of ideas; that they consider ideas private property to be stated for revenue only, and that the excellence of the various State organizations accounts for a good deal of the apathy which exists in regard to the National Association. The writer urges upon the meeting "action," and not merely talk and continuity in the work mapped out by the convention.

ing "action," and not merely talk and contention.

Mr. H. S. Perkins of Chicago delivered the third address, and started out by comparing the experience of the association to that of St. Paul and other roving bodies, which, like the Biblical preacher, has stood the tide, defied the storms, and with sails flying sailed into the harbor of St. Louis. He complimented the officers—Messrs. Kroeger, Kunkel, Waldauer and Epstein—for the earnest management of the affair, and characterized the prelude as having been "worked," not played. He also expressed the hope that the meeting in this, the pivotal city and metropolis of the great Mississippi Valley, may act upon the nineteen year old asociation like the balm of youth.

This is the first time that the musical convention is held in any city of this latitude, and it was thought no more than fair to give the Southern and Southwestern States a chance to have its musical people become identified with the union, and partake of its benefits. When it came to the matter of weather, Mr. Perkins said, the question was asked, "How hot will it be in St. Louis the week of Fourth of July?" As no one could tell or assumed to prognosticate in repart to this flem of personal comfort, it was decided that problematical temperature should not be considered.

In conclusion the author congratulated St. Louis on its cottere of musicians and harmonious workers and thanked them for the

BUILDING ASSOCIATION LOANS.

Judge Valliant Questions the Authority to Borrow Large Sums.

Judge Valliant has handed down an opinfon in which he calls in question the right
of building and loan associations to borrow
money and assign bonds. Charles F. Kuhn
loaned the Crescent Building and Loan Association \$5,000 in 1883, and was given securities as collateral. The association failed
and he asked the court to make him a preferred creditor and to pay the balance
due him out of the securities pledged.
Judge Valliant denied his application and
expressed doubt that the association had
the authority to borrow money, as such a
proceeding is apart from its original purpose.

Mr. T. W. Kelly Plighted His Troth to a Dying Bride.

Flushed with the excitement of preparing her wedding trousseau, Miss Mary L. Unger of East St. Louis was stricken with typhoid on the eve of her marriage. Her engagement to Mr. T. W. Kelly, son of the foreman of the Malleable Iron Works, was recently announced. The day for the wedding had been set, when the grim destroyer came to interpose the "silp twixt cup and lip." Miss Unger's case was pronounced hopeless by her attending physicians. Mr. Kelly, the prespective groom, was heartbroken and pleaded with his bride to become his wife even in the shadow of death. The dying girl consented to her lover's wooing. Fr. O'Halloran of St. Patrick's Church was called in, and with her grief-stricken relatives gathered around her bedside, Miss Unger gasped the words that made her one with her lover for the brief space until death will put them apart.

It behooves young ladies who have just reached town to inform themselves of the ways of city life, especially as exemplified ways of city life, especially as exemplified on Spruce street, before starting upon tours of exploration. If Miss Maud Ellerton of Evansville, Ind., had observed this advice Tuesday morning she would not now be suffering from anatomical disintegration caused by an encounter with a jealous woman, Miss Ellerton for into the Union Station on an Air Line train as early as 7 o'clock. She immediately sallied forth to see the city and secure an abiding place. In Evansville, apparently, there exists a refreshing confidence in human nature, and accordingly when a young man introduced himself to Miss Ellerton at the Market street exit, as Mr. Ployd, and offered to secure her a rooming place, she did not suspect that he belonged to some other woman, and joyfully accepted his offer. Mr. Floyd's intentions were evidently not honorable, for he immediately pileted Miss Ellerton toward Spruce street. When the couple passed the house No. 511, a woman suddenly dashed out upon the couple with a shrick of jealous frenzy and demanded of Miss Ellerton was entirely unprepared for "man." Miss Ellerton what she was doing with her "man."
Miss Ellerton was entirely unprepared for such a display of inhospitality and failed to put up any kind of a defense, when the woman, who is known as Belle Lindon, proceeded to claw her hair out, hammer her over the head, shoulders and face with an umbrella and pummel her eyes with har fist. As for Mr. Floyd, he had an immediate engagement elsewhere.

After Miss Ellerton had visited the Dispensary, where Dr. Newcomb dressed two severe scalp wounds, a badly split upper lip, a black eye and a severely contused shoulder, she took the next train for Evansville.

THE BLACK HUSSAR.

Produced at the Cave With Miss Ber-tram in the Cast.

The company which Manager Frank Mc Neary has now succeeded in getting together at Uhrig's Cave is an organization at which few stones should be hurled. The coming of Miss Helen Bertram into the cast rounds it out nicely, and the production of the "Black Hussar" Sunday night was meritorious and enjoyable. The largest crowd of the season was present in tribute to Miss Bertram's initial appearance, and they were more than delighted with her performance as Minns. Her year's hard work under Mme. Pappenheim has materially improved her voice, while she still retains her magnetic mannerisms. Her solo in the third act was a gem and received three encores.

her magnetic mannerisms. Her solo in the third act was a gem and received three encores.

Deston, Sykes, Miss Hanlon and Miss Lodge surpassed their previous work. Deshon as Piffkow and Miss Lodge as Barbara were especially good. The latter's silde for the base viol in the base ball take-off made a great hit.

Pruette's work was not up to his usual standard, owing to lack of preparation. His memory was very faulty. In justice to him it should be said that this was due to several days' lilness, and by to-night, no doubt, this fault will have disappeared.

Among the other features of the performance was the dancing of little Miss Minette Wheeler, interpolated in the third act. Few children dance more gracefully or with more perfect regard for time.

day night is said to be Robert Brown, who lives in a section known as "The Pocket," near French Vilage. Parties from his neighborhood were in East St. Louis Tuesday and reported to the police that a man answering Brown's description has been mysteriously missing since Sunday night.

There is a strong probability that Brown was murdered. The idea that he had taken arsenic was disproved at the County Hospital. He has a big contusion off the side of his head, evidently caused by a blow. Dr. McLean says his veniting at the station was the effect of the concussion.

The suicide theory has been abandoned, and the police are investigating carefully to see whether his wound was murderous or accidental.

Seasonable Clothing At Reasonable Prices.

TWO THINGS WE ARE NOTED FOR.

We always have the goods-stacks of them-the KIND for the season and the SORT for the people.

Men expect to find what they want with us. It's a disappointment if they do not. We seldom disappoint. A man gets what he wants.

-IF IT IS FIT, HE GETS IT. —IF IT IS FASHION, HE GETS IT. -IF IT IS BEAUTY, HE GETS IT. IF IT IS QUALITY, HE GETS IT. IF IT IS PRICE, HE GETS IT.

If it is his money back, he gets it. But that is the very thing a man does not want when he comes to us for Clothing. We satisfy. WE ARE GIVING BIG VALUES IN HOT WEATHER WEAR, and have full lines to select from.
